

A wide-angle landscape photograph of a mountain valley in Norway. In the foreground, a calm lake reflects the surrounding scenery. The middle ground features a small village with several buildings, including a prominent white church with a steeple. The background is dominated by steep, rugged mountains with patches of snow and autumn-colored vegetation. The sky is a deep blue with scattered white clouds. The text "#Masterpiece 2022 | Creation" is overlaid in white, bold font, with a short horizontal line above the word "Creation".

# #Masterpiece 2022 | Creation

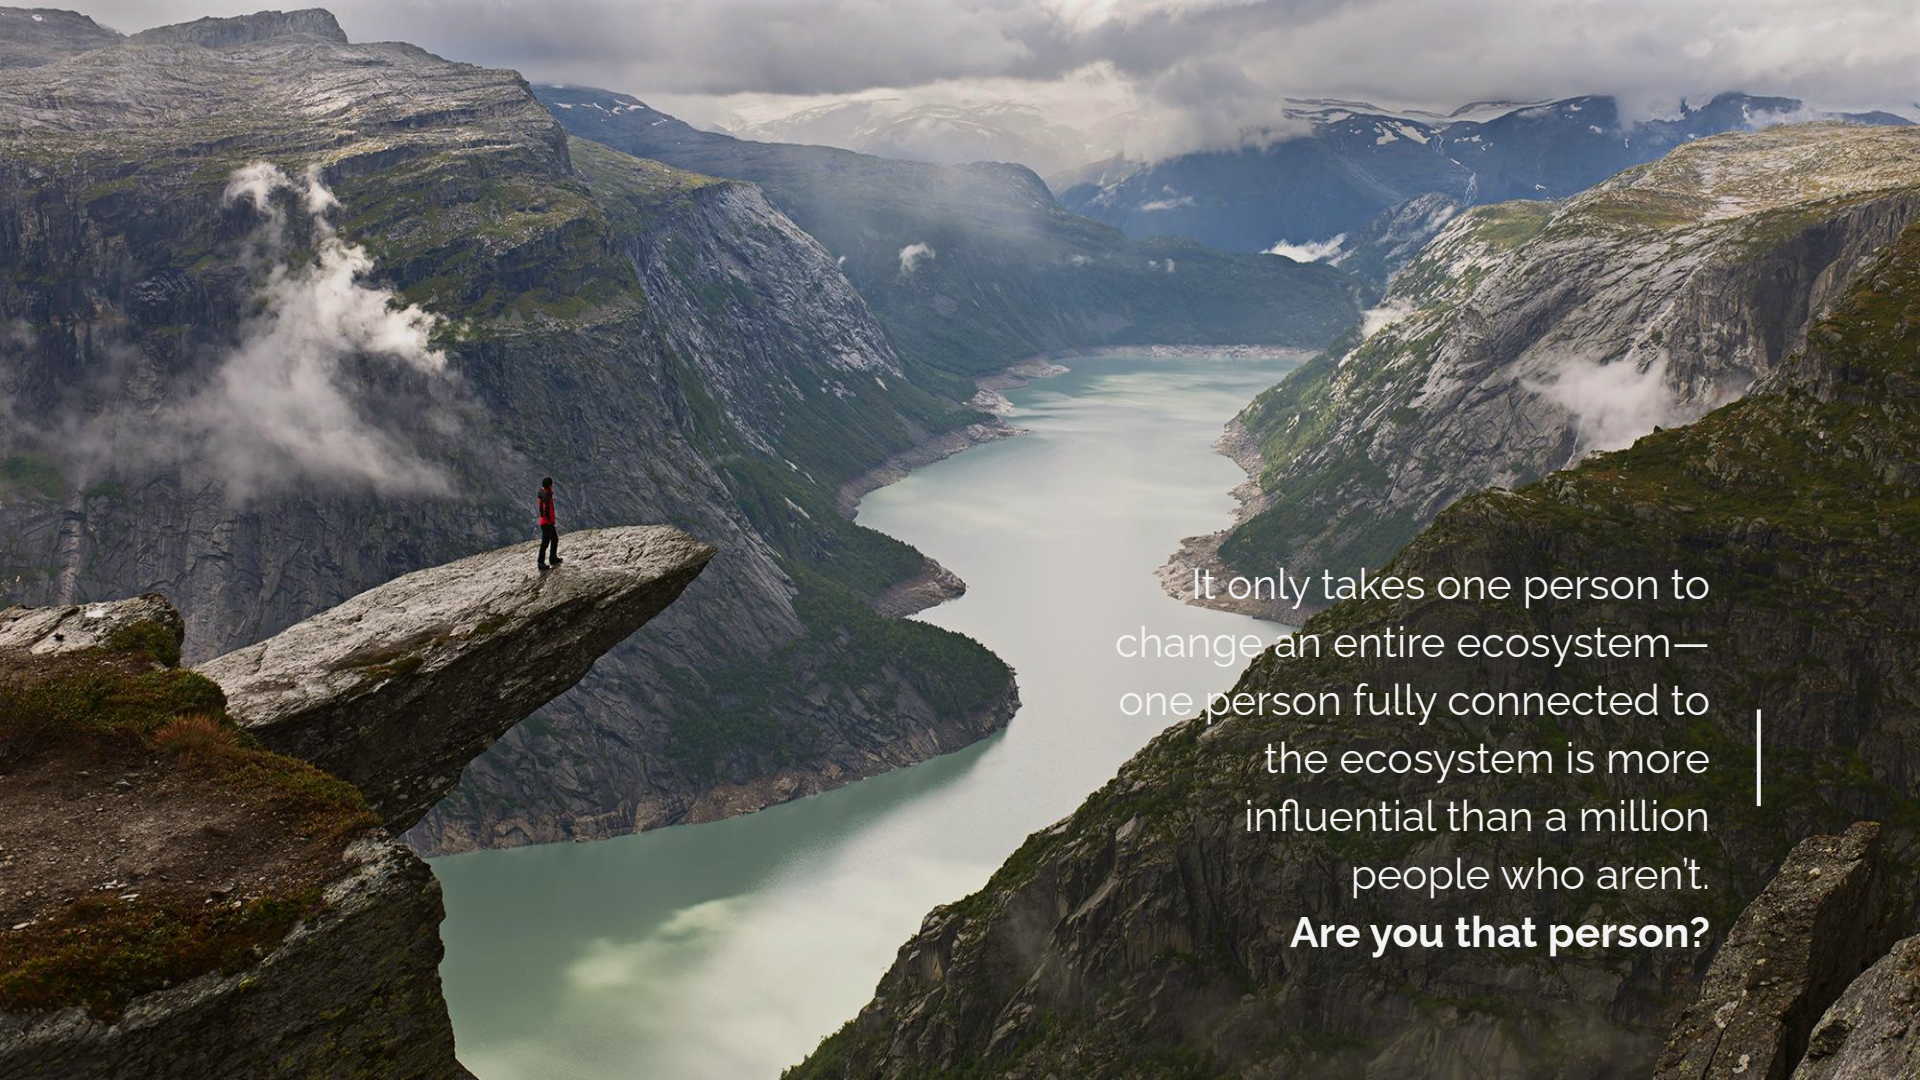

*Alesund | Norway*

Climate change, inequality,  
war... all symptoms that the  
current system, which the first  
civilization in the fertile  
crescent invented 5,000 years  
ago, is no longer fit for purpose.

**Are you ready to reconnect,  
reimagine and recreate the  
ecosystem for the next 5,000  
year cycle?**

It only takes one person to  
change an entire ecosystem—  
one person fully connected to  
the ecosystem is more  
influential than a million  
people who aren't.  
**Are you that person?**

A scenic landscape photograph showing two hikers in the foreground, looking out over a vast mountain range. The hiker on the left wears an orange shirt and blue shorts, carrying a blue backpack. The hiker on the right wears a pink shirt and teal shorts, carrying a yellow backpack. They are standing on a rocky, mossy ridge. In the background, a deep blue fjord winds through a valley, surrounded by steep, green mountains. The peaks are rugged and partially covered in snow. The sky is overcast with soft, grey clouds.

When you connect to the  
entire ecosystem for long  
enough, you will create your  
Masterpiece—your portal to a  
sustainable world.

**Are you ready to  
Create your Masterpiece?**

# A Portal to Sustainability

A Masterpiece is always ahead of its time. To create one requires us to master ourselves. It emerges from deep within us and serves a higher purpose. Examples of Masterpieces we have helped bring to life include:

- New organizations e.g. United Cities
- New platforms e.g. eVollage
- New programs e.g. Ellev8
- Reinventing existing organizations e.g. HP Inc. becoming sustainable

# The Pathway of Prosperity

*Santorini, Greece | 7-10 October 2022*

The next step on our journey will take us to Santorini, which has seen civilizations come and go—some collapsed due to natural disasters, others by suppressing the key to their success (democracy and collaboration). True prosperity always flows back to the Source rather than focusing only on growth. Here we will explore where you are on the Pathway of Prosperity and your next step beyond the Matrix of Money.
